This young all-collegiate show was pointed to appeal to young people and done well enough to make big plans for routing the Eastern States again in 1974, with an open welcome to all Windjammers and other Circus Fans.

The 1973 Year Book shows CIRCUS KIRK started en-route on June 21st, to their first play date at Telford, Penna. on June 22nd. About two thirds of the Season were spent in the Quaker State, with two days in Maryland just before July the Fourth, and the last week of July and the first two weeks of August routing Ohio. The Circus closed September 24th at Mount Joy, Penna. We were perhaps the most youthful show to ever take the Road and everyone pitched in with a will to "pitch it up" and "tear it down" in the two and half months we were out.

Fans in New Jersey, Rhode Island and Massachusetts will have an opportunity to catch the tour this coming summer. We will spend about four weeks in these "new" states. It is hoped that some of the Windjammers will look us up en-route, as all fans are assured a big welcome. Any support we can get as we start out again will indeed be appreciated. We know you will thoroughly enjoy our Circus Band.
